

Your child's annual care checklist

A guide to preventive care screenings and counseling services for kids

Get the care you need when you need it. Take this checklist with you to your child's next appointment. A preventive health visit can help keep your child healthy and identify any health issues before they become more serious. You and your primary care provider (PCP) can then work together to choose the care that may be right for your child. Recommended preventive care services for kids will change based on age and may include some of the following¹:

Annual wellness exams	Date
<input type="checkbox"/> Age-appropriate well-child examination	
<input type="checkbox"/> Age-appropriate immunizations (which may include the COVID-19 vaccine, talk to your child's provider about what is right for them)	
<input type="checkbox"/> Weight assessment and counseling for nutrition and physical activity for ages 3-17	
<input type="checkbox"/> Smoking and substance use assessments for adolescents	
<input type="checkbox"/> Age-appropriate behavioral health assessments	
<input type="checkbox"/> Blood pressure screening	
Once a year	
<input type="checkbox"/> Flu shot	
Annual routine physical exam	
<input type="checkbox"/> Medical history for all kids throughout development	
<input type="checkbox"/> Blood screenings for all kids	
<input type="checkbox"/> Developmental screening for children under 5 years of age	

As recommended by your child's PCP	Date
<input type="checkbox"/> Vision screening	
<input type="checkbox"/> Hearing screening	
<input type="checkbox"/> Lead screening to be completed by the age of 2	
<input type="checkbox"/> Fluoride varnish for all kids once teeth are present	
<input type="checkbox"/> Oral health risk assessment—see your child's dentist 2 times a year for a cleaning and checkup	
<input type="checkbox"/> STI (sexually transmitted infection screening) for adolescents	
<input type="checkbox"/> Anemia screening	
As needed	
<input type="checkbox"/> Follow-up care for children prescribed ADHD medicine	
<input type="checkbox"/> Obesity screening and counseling	
<input type="checkbox"/> Testing for kids at higher risk of tuberculosis	

Not all kids need every service identified above. And not all services are listed. This is only a recommended list of screenings. Your PCP should give you information about your child's growth, development and general health and answer any questions you may have.

Topics to discuss with your PCP:

Getting needed care

- Concerns with getting the care, tests or treatments your child needs
- Scheduling routine care appointments in advance
- Where and how to get urgent care when your child needs it right away
- Coordinating the care your child gets from other doctors or specialists
- Difficulties getting your child appointments with a specialist, if needed

Prescription drugs

- Any questions with the prescription medications your child is taking
- Issues getting the medicines your child's provider prescribes

Important care

- Suggestions on how to improve your child's physical activity
- Ways to help if your child is feeling sad or blue

Tests and treatments

- When you will get your child's results from labs, X-rays or other tests

We're here to help

From scheduling your next checkup appointment to finding a PCP, you can count on us to help you get care and treatment as quickly as possible. If you have questions, please chat with Member Services through myuhc.com/communityplan or the UnitedHealthcare® app.
