

HealthTalk

Your journey to better health

What's inside

It's time for your annual flu shot. Find out where to get one by using our flu shot location finder. Learn more on page 2.

Medicaid renewal

Don't lose coverage

Medicaid members need to renew their coverage every year. This process is called "redetermination." Your state will reach out and tell you when it is time to renew.

Make sure the state can reach you. Be sure they have your current address, email, and phone number.

It is important to respond when the state contacts you. If you don't, you risk losing your health plan.

We're here to help

Learn more at

[uhc.com/staycovered](https://www.uhc.com/staycovered).

Fight the flu

It's time for your annual flu shot

It is important to get a flu shot every year. It is recommended for everyone 6 months and older. Here are 3 reasons why:

1. It protects you from getting sick with the flu.
2. If you do get the flu, your symptoms will be less severe.
3. It also protects your family from getting the flu. When everyone gets the flu shot, it makes it harder for the flu to spread.

Get your flu shot today. There is no cost to you. Use our online tool that makes it easy to schedule one. Visit myuhc.com/findflushot.

Your member handbook is updated annually. Find it on myuhc.com/communityplan.

It includes our Notice of Privacy Practices and Notice of Non-discrimination. They may also be found online at uhc.com/privacy and uhc.com/legal.

Extra benefits

Get no-cost rides to medical visits and more

If you're an eligible member of UnitedHealthcare® Community Plan, your benefits may include non-emergency transportation. And there is no cost to you.

That means you can get rides to covered medical appointments like primary care provider (PCP), maternity, vision, dental, mental health and substance use visits.

To schedule a ride, call **1-866-527-9933**, TTY **1-866-288-3133** at least 5 business days before your appointment. We offer rides within 35 miles of your home, anything over 35 miles will require approval.

Screening for breast cancer

Breast cancer screening means checking a woman's breasts for cancer before there are signs of the disease, like lumps. Breast cancer screening cannot prevent breast cancer, but it can help find it early, when it is easier to treat. Screening is recommended for women between the ages of 40-74.¹ Talk to your primary care provider about which breast cancer screening tests are right for you, and when you should have them.

Quitting is worth it

Most people know smoking is dangerous. But did you know that cigarette smoking causes nearly 1 in 5 deaths each year in the U.S.?²

The good news is quitting smoking improves health, lowers the risk of 12 types of cancer and can add as much as 10 years to your life.³

Even though quitting is hard, you can get tools and support to help you do it.

Tips to help you quit:

- Make a list of reasons to quit
- Pick a quit date and tell all your friends and family
- Get rid of your cigarettes and lighters
- Ask people not to smoke around you
- Use nicotine replacements like patches or gum

Supporting your plan to quit

Chat with an advocate through myuhc.com/communityplan or the **UHC mobile app**.

Or call New Jersey Quitline at **1-866-657-8677**, TTY **711**, or visit njquitline.org.

Controlling your blood pressure

Blood pressure is how hard your blood pushes against your artery walls. It goes up and down throughout the day. But if it often stays at 130/80 or higher, that could mean you have high blood pressure, also called hypertension.

That's something to take seriously—because it can lead to problems like heart attacks, strokes, kidney issues, and even vision loss. It's important to know your blood pressure numbers and have regular visits with your primary care provider (PCP). Together you can make a plan to keep your blood pressure in check.

Using Your Benefits: What You Need to Know

Helpful tips to make the most of your health coverage:

Where to get care

- For non-emergency care, always go to a UnitedHealthcare provider, unless you have other main insurance like Medicare
- For emergencies, you can go to any emergency room

What to bring to your appointment

- Always show both of these ID cards:
 - Your UnitedHealthcare ID card
 - Your Health Benefits ID (HBID) card - this is the card you got when you joined NJ FamilyCare
- Bring a valid photo ID
- Make sure your provider has your correct name and date of birth

About costs

- You should not be charged for covered services unless you're in Plan C or D, which may include a co-pay
- If you have a co-pay and don't pay it during your visit, you might receive a bill later

Stay Safe: Easy Tips to Prevent Falls

Falls can be serious, but a few simple steps can help older adults avoid falls and stay safe:

1. Keep moving

Stay active to build strength and balance. Try walking, dancing, or gentle exercises like tai chi.

Good to know: The UHC Dual Complete® NJ-Y001 plan includes a free gym membership and access to workout videos and live online fitness classes. Call **1-800-514-4911** (TTY **711**) to learn more.

2. Make your home safer

- Remove loose rugs and clutter on the floor
- Keep rooms well-lit
- Add grab bars in the bathroom

3. Wear the right shoes

Choose shoes with non-slip soles. Avoid high heels, slippers, or walking in socks.

4. Talk to your doctor

Some medications can make you dizzy or drowsy. Ask your doctor to review your prescriptions.

5. Check your vision

Visit your eye doctor regularly to keep your vision sharp.

6. Use support tools

If needed, use a cane or walker for extra balance.
