

HealthTalk

Your journey to better health

Health is 24/7 – now your health plan support is, too

Download the **UnitedHealthcare app** for on-the-go-access to your plan benefits and coverage. Available on the App Store® or Google Play™.

Covered care

Save money at the pharmacy

Over-the-counter products are items you can buy without a prescription. They include cold and allergy medicine, pain relievers, vitamins, first-aid cream, and other products. Your benefits may lower the cost of OTC items.

Questions?

Chat with an advocate through myuhc.com/communityplan or the **UHC mobile app**.

Dental health

Diabetes and dental health

More than 38 million people in the United States have diabetes.¹ High blood sugar can make it harder to keep your mouth healthy. Brushing and flossing your teeth daily can help avoid dental pain and infections. So can having regular dental visits. Your dentist can find and help treat tooth decay and gum problems before they become serious.

For help finding a dentist call Member Services at the phone number on page 4. And remember to have your a1c checked every 3 months.

Understand your health conditions

If you have a health challenge, you may have questions like:

- What is this disease?
- How does this condition affect my health?
- What are the treatments?

Our disease management program can help. Visit myuhc.com/communityplan/healthwellness to learn about:

- Asthma
- Attention deficit hyperactivity disorder (ADHD)
- Coronary artery disease (CAD)
- Chronic obstructive pulmonary disease (COPD)
- Depression
- Diabetes
- Heart failure
- Hepatitis C
- Hypertension
- Obesity

Postpartum care

Caring for your body after giving birth

Your body needs to recover after giving birth. While your new baby needs a lot of attention and care, it is important to take care of yourself, too.

- Get as much rest as possible. Sleep when your baby sleeps.
- Try to eat right. A healthy, balanced diet can help your body recover.
- Move a bit. Check with your health care provider first. If they say it's okay, try to walk and do postpartum exercises for even a few minutes each day.
- Be honest with friends and family. Ask for help when you need it.

If you have high blood pressure, diabetes or are overweight, you might be at a higher risk for preeclampsia and other complications. To learn more about warning signs to watch for, visit cdc.gov/hearher/maternal-warning-signs.

Protect your skin

Skin cancer is the most common form of cancer in the United States. It is estimated that nearly 9,500 people are diagnosed with skin cancer every day.² Indoor and outdoor tanning can lead to an increased risk of developing skin cancer.³

Others at higher risk of developing skin cancer include:

- Those with fair skin
- Those with light, red or blonde hair
- Those with blue, green or gray eyes

How to protect your skin:

- Apply sunscreen
- Wear protective clothing and wide-brimmed hats
- Avoid artificial tanning booths, use sunless lotions instead

Check your skin monthly for changes in the size, shape or color of a mole. Call your provider and schedule a checkup if you find any changes related to your skin.

Make an appointment with your primary care provider (PCP) today

Yearly checkups (or annual wellness visits) help you stay healthy. These visits are in addition to other doctor visits about medical concerns. **It is important to see your PCP once a year even if you don't feel sick.**

The visit is covered at no cost to you

- See your in-network PCP for this visit
- Your PCP is the main doctor you see for most of your care
- Bring your member ID card

Schedule your appointment

- Need help making an appointment? We can help. Chat with Member Services through myuhc.com/communityplan or the **UnitedHealthcare® app**

What to expect at your visit

- Your PCP may check your heart and lungs, hearing, vision and body mass index (BMI)⁴
- Ask about other tests, screenings or shots that are right for you
- Talk to your PCP about any of your health concerns and what illnesses you may be at risk for
