Your journey to better health

Do you know what drugs are covered under your health plan?

See page 2 for details about your prescription drug benefits.

Plan benefits

Caring for you

We want to make sure you get the care you need when you need it.

If you need help getting to your provider's office, our plans offer transportation benefits to get you to appointments.

If you need to see a provider right away, we offer care after hours in urgent care centers. Many plans also offer Nurse Line that you can call anytime 24/7. Virtual visits are offered in most states. We want you to know these services are available to you as a plan member.

To find providers, learn about transportation benefits, or look for urgent care center locations, visit myuhc.com or use the **UnitedHealthcare app**.

Care guidelines

Top care

We give our providers tools so they can best care for our members. These tools are called clinical practice guidelines. They inform the providers about how to manage illnesses and promote wellness. The guidelines cover care for a variety of illnesses and conditions like diabetes, high blood pressure and depression. They also give information on how to stay well with proper diet, exercise, and recommended vaccines.

Plan benefits

Know your drug benefits

Visit our website to learn about your prescription drug benefits. It includes information on:

- 1. What drugs are covered.** There is a list of covered drugs. You may need to use a generic drug in place of a brand name drug.
- 2. Where to get your prescriptions filled.** You can find a pharmacy near you that accepts your plan. You may also be able to get certain drugs by mail.
- 3. Rules that may apply.** Some drugs may only be covered in certain cases. For example, you might need to try a different drug first. (This is called step therapy.) Or you might need approval from UnitedHealthcare to use a drug. (This is called prior authorization.) There may also be limits to the amount you can get of certain drugs.
- 4. Any costs to you.** You may have copayments for prescriptions if you are in NJ FamilyCare C or NJ FamilyCare D.

Look it up. Find information on your drug benefits at myuhc.com/CommunityPlan. Or, call Member Services toll-free at **1-800-941-4647**, TTY **711**.

Getting care

Take charge

Prepare to see your provider.

Preparing for your provider's visit can help you get the most out of it. So can making sure your provider knows about all the care you have had. Here's how you can take charge of your health care:

1. Think about what you want to get out of the visit before you go. Try to focus on the top three things that you need help with.
2. Tell your provider about any drugs or vitamins you take on a regular basis. Bring a written list. Or bring the medicine itself with you.
3. Tell your provider about other providers you may be seeing. Include behavioral health providers. Mention any medications or treatment they have prescribed for you. Also bring copies of results of any tests you have had.
4. If you were in the hospital or ER, see your provider as soon as possible after your discharge. Share your discharge instructions with them. Proper follow-up may prevent another admission or visit to the ER.

 Utilization management

The right care

UnitedHealthcare Community Plan does utilization management (UM). All managed care health plans do. It's how we make sure our members are getting the right care at the right time and in the right place.

A doctor reviews requests when care may not meet guidelines. They decide if the care and services are correct. The services must be covered under your benefits. We do not reward doctors or staff for denying services. We do not pay anyone for providing less care. Members and doctors have the right to appeal denials. A denial notice will tell you how to appeal.

Questions? You can talk to our staff. They are available 8 hours a day during normal business hours. If you need to leave a message, someone will call you back. TDD/TTY services and language assistance are available if you need them. Just call **1-800-941-4647**, TTY **711**, toll-free.

Top quality

UnitedHealthcare Community Plan has a Quality Improvement program. It works to give members better health care and services. Each year we set goals and measure how we are doing.

Some of our goals focus on improving the number of services pregnant members and children receive. These include postpartum visits, well check-ups, and immunizations. Other goals focus on making sure people with certain diseases, such as diabetes, get the tests they need. Sometimes a member needs to go to the hospital or emergency room for a mental health issue. When this happens, our goal is that they see a mental health professional after they go home.

We also survey our members each year. We want to see how they feel our health plan is performing. We use this feedback to improve the services that we offer, including our provider network and customer service. This year we are working on improving members' digital experience.
