### 3. Clinical

- a. No new enhancements for this release.

### 4. Formulary (Plan/Member)

- a. No new enhancements for this release.

## D. Public Directory APIs

### 1. Provider Directory

- a. Enhanced Search Capabilities: `_revinclude` and `_include` functionality added.
  - a. HealthcareService Resource Enhancements
    - i. `_revinclude` Parameter Support: Users can now use the `_revinclude` parameter with `PractitionerRole:service` and `OrganizationAffiliation:service` to retrieve resources that reference the primary resources being searched.
    - i. `_include` Parameter Updates: The `_include` parameter has been expanded to support searches related to `HealthcareService.location`, `HealthcareService.organization`, and `HealthcareService.coverage-area`, allowing users to retrieve resources directly referenced by the primary resource.
  - b. Practitioner Resource Enhancements
    - i. `_revinclude` Parameter Support: The `_revinclude` parameter with `PractitionerRole:practitioner` is now supported, enabling the retrieval of related resources referencing the primary resources being searched.
  - c. PractitionerRole Resource Enhancements
    - i. `_include` Parameter Support: Users can utilize the `_include` parameter for enhanced searches related to `practitioner`, `organization`, `location`, `service`, and `network`. This allows for the retrieval of directly referenced resources, enhancing the data richness of search results.
  - d. InsurancePlan Resource Enhancements
    - i. `_include` Parameter Updates: The `_include` parameter has been expanded to support searches related to `InsurancePlan:owned-by`, `InsurancePlan:administered-by` and `InsurancePlan:coverage-area`, allowing users to retrieve resources directly referenced by the primary resource being searched.

### 2. Formulary Directory

- a. No new enhancements for this release. .

## Defect Fixes in this Release

No defects were addressed in this release.
