

Emergency Contraceptive Services Only

\$0 Cost-share Products and Drugs for Women^{1,2}

Effective: January 1, 2025

U.S. Preventive Services Task Force A & B recommendation medications and supplements

The health reform law (Affordable Care Act) requires most health plans to pay for birth control (contraceptives) for women at no cost to you. Some organizations can choose not to cover emergency birth control as part of their group health plan due to sincerely held religious beliefs or moral convictions. If you are a member of one of these groups (Eligible Organizations), and the group has elected an optional accommodation, UnitedHealthcare will cover certain birth control products and services at no cost to you.

You can use your Contraceptive Services Only ID card to get those birth control products and drugs on this list that your group has designated for the optional accommodation for \$0 cost-share if they are:

- Prescribed by a network health care professional such as your doctor.
- For products and drugs filled at a network pharmacy.
- You must have a prescription for Emergency contraceptives to be covered at no cost to you, even for items you can buy without a prescription.
