**Prescription drug  
list changes**  
**Effective October 1, 2026**

Dear Valued Plan Participant:

We want to alert you about upcoming changes to the Prescription Drug List (PDL) for your plan.

These changes include copay costs or coverage requirements. Review the list of changes to learn if any of your medications will be impacted.

To help outline changes in cost or coverage, prescription drugs are grouped by tiers. A tier indicates the amount you pay when you fill a prescription. Please reference this chart as you review the changes to the PDL for your plan.

<b>Tier 1</b> Lowest-cost medications	<b>Tier 2</b> Mid-range cost	<b>Tier 3</b> Highest-cost

**Prescription drugs subject to exclusion or limited coverage<sup>1,2</sup>**

We evaluate prescription drugs based on their total value, including how a drug works and how much it costs. When several drugs work in the same way, we may choose to exclude or limit coverage of the higher-cost option. Effective **October 1, 2026**, the drugs listed below may be excluded or have limited coverage. You may need to get a prior authorization or try preferred alternative treatment options prior to the approval of coverage.

Sign into your online account to see if there are any actions you need to take.
