

2025 4-Tier Prescription Drug List

This Prescription Drug List (PDL) outlines the most commonly prescribed medications for certain conditions and organizes them into cost levels, also known as tiers. This PDL is accurate as of May 1, 2025, and is subject to change after this date. The next anticipated update will be in September 2025. Your estimated coverage and copayment/coinsurance may vary based on the benefit plan¹ you choose and the effective date of the plan.

For more information:

Visit the member website listed on your member ID card for information to help you better understand and manage your medications.

- View your current benefits
- Search for drug prices and lower-cost alternatives
- You could save time and money using a home delivery pharmacy

Call the toll-free phone number on your member ID card.

**United
Healthcare®**
Oxford

Effective May 1, 2025

¹ Optum Rx is the administrator of your Oxford pharmacy benefit plan.

Note: Specialized non-standard infant formulas and nutritional supplements may be subject to prior authorization. Please see your Summary of Benefits and Coverage (SBC) for specifics.

In certain documents, the Prescription Drug List (PDL) was referred to as the "Preferred Drug List (PDL)." This change in terms does not affect your benefit coverage.

All brand-name medications are trademarks or registered trademarks of their respective owners.

Your Prescription Drug List

This PDL outlines covered medications and organizes them into cost levels, also known as tiers. An important part of the PDL is giving you choices so you and your doctor can choose the best course of treatment for you.

Go to your member website for drug information.

Since the PDL may change, we encourage you to visit the member website listed on your member ID card. It's the best source for accessing up-to-date information about the medications your pharmacy benefit covers, possible lower-cost options and cost comparisons.

We want to help you better understand your medication options.

Your pharmacy benefit offers flexibility and choice in determining the right medication for you. To help you get the most out of your pharmacy benefit, we've included some of the most commonly asked questions about the PDL below.

What is a PDL?

This document is a list of covered medications. They are placed into cost levels known as tiers. The PDL includes both brand-name and generic prescription medications approved by the Food and Drug Administration (FDA).

Please note: Where differences are noted between this PDL and your health plan documents, the health plan documents will rule. Please look at your health plan documents to see which medications are covered under your health plan. You may also log in to the member website listed on your member ID card or call us at the toll-free phone number on your member ID card for more information.

How do I use my PDL?

Bring your PDL with you when you see your doctor. When choosing a medication, you and your doctor should consult this guide. It will help you and your doctor choose the most cost-effective prescription drugs. This guide will also help you know if a medication has special programs that apply to it.

When a prescription drug product is not included in the PDL, you or your representative may request an exception to gain access to the prescription drug product. To make a request, contact us in writing or call the toll-free phone number on your member ID card. We will notify you of our determination within 72 hours.

What are tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, which is determined by your employer or health plan. This is how much you will pay when you fill a prescription. Tier 1 medications are your lowest-cost options.

If your medication is placed in Tier 2, 3 or 4, look to see if there is a Tier 1 option available. You should discuss these options with your doctor.

Check your health plan documents to find your specific pharmacy plan costs.

\$	Drug tier	Includes	Helpful tips
\$	Tier 1 Your lowest cost	Medications that provide the highest overall value. Mostly generic drugs. Some brand-name drugs may also be included.	Use Tier 1 drugs for the lowest out-of-pocket costs.
\$\$	Tier 2 Your mid-range cost	Medications that provide good overall value. Mainly preferred brand-name drugs.	Use Tier 2 drugs instead of Tier 3 or Tier 4 drugs to help reduce your out-of-pocket costs.
\$\$\$	Tier 3 Your mid-range cost	Medications that provide good overall value. A mix of preferred specialty and non-preferred brands.	Use Tier 3 drugs instead of Tier 4 drugs to help reduce your out-of-pocket costs.
\$\$\$\$	Tier 4 Your highest cost	Medications that provide the lowest overall value. Mostly non-preferred brands, non-preferred generics, and non-preferred specialty.	Many Tier 4 drugs have lower-cost options in Tiers 1, 2 or 3. Ask your doctor if they could work for you.

Please note: Some plans may have 2 or 3 tiers, while others may not have any. If you have a high-deductible health plan, the tier cost levels may apply once you hit your deductible. Refer to your enrollment and plan materials on the member website listed on your member ID card, or call us at the toll-free phone number on your member ID card for more information about your health plan.

Diabetic supplies and prescription medications to treat diabetes may be subject to different cost-share arrangements. Please see your Summary of Benefits and Coverage (SBC) for specifics.

When does the PDL change?

- Medications may move to a lower tier at any time.
- Medications may move to a higher tier when a generic becomes available and is placed in a lower tier than the brand.
- Medications may move to a higher tier or be removed from the PDL most often upon your group's renewal.
- When a medication changes tiers, you may have to pay a different amount for that medication.

For the most up-to-date list, visit the member website listed on your member ID card, or call the toll-free phone number on your ID card.

Programs and limits

Some medications are in one or more of our pharmacy benefit programs. Your health plan determines how these medications are covered and may differ from what is noted in the PDL.

Prior authorization (sometimes referred to as notification or precertification) required² – Your doctor is required to provide additional information to us to determine coverage.

Health care reform preventive – This medication is part of a health care reform preventive benefit and may be available at no cost to you.

Supply limit – Amount of medication covered per copayment or in a specific time period.

Step therapy – Trial of a different medication is required before another medication may be covered.

Specialty medication – Specialty medications treat complex or rare conditions and may require special storage and handling.

To learn more about a pharmacy program or to find out if it applies to you, please visit the member website listed on your member ID card or call us at the toll-free phone number on your member ID card. TTY users can dial **711**.

Should I talk to my doctor about over-the-counter (OTC) medications?

An OTC medication may be the right treatment for some conditions. Talk to your doctor about available options.

What is the difference between brand-name and generic medications?

Generic medications contain the same active ingredients (what makes the medication work) as brand-name medications, but they often cost less. Once the patent of a brand-name medication ends, the FDA can approve a generic version with the same active ingredients. These types of medications are known as generic medications. Sometimes, the same company that makes a brand-name medication also makes the generic version.

What if my doctor writes a prescription for a brand-name medication?

The next time your doctor gives you a prescription for a brand-name medication, ask if a generic equivalent or lower-cost option is available and if it might be right for you. Generic medications are usually your lowest-cost option, but not always. For some health plans, if a brand-name medication is prescribed and a generic equivalent is available, your share of the cost may be the copayment PLUS the cost difference between the brand-name medication and its generic equivalent. Visit the member website listed on your member ID card to make sure.

Are you taking a specialty medication?

Take advantage of personalized support designed to help you get the most out of your benefit plan. Visit the member website listed on your member ID card or call the toll-free phone number on your member ID card to learn more. If you're taking a specialty medication that is on Tier 4, call us at the toll-free phone number on your member ID card to talk with a pharmacist about finding lower-cost options or a financial assistance program.

How do I get updated information about my pharmacy benefit?

Since the PDL may change during your plan year, we encourage you to visit the member website listed on your member ID card or call us at the toll-free phone number on your member ID card for more current information.

² Depending on your benefit, you may have notification or precertification requirements for select medications.

³ This is not applicable for Connecticut Public Sector plans. For Connecticut commercial business, a prescription drug product that is therapeutically equivalent to an over-the-counter drug may be covered if it is determined to be medically necessary.

Options to fill prescriptions

You have choices on where to fill prescriptions you take regularly. You have the option to fill at a retail pharmacy or have them mailed to your home. It's up to you. Optum® Home Delivery is one of your network pharmacies. There may be other options in your network. Sign in at myuhc.com > *Pharmacies & Prescriptions* > *Find a pharmacy*.

How do I locate and fill a prescription through the mail order pharmacy?

UnitedHealthcare offers a Mail Order Pharmacy Program. Here's how to fill prescriptions through Optum Home Delivery.

- **E-prescribe**

Ask your prescribing provider to electronically send new prescriptions to Optum Home Delivery for up to a 90-day supply.

Or they can call your doctor for you.

- **Online:**

Visit myuhc.com > *Pharmacies & Prescriptions* > Rx profile to set up an account. You will need to provide your payment method (credit card, debit card or bank account). Next go to *My prescriptions* tab and select the medication you want ordered through Optum Home Delivery.

- **Phone:**

Call Optum Home Delivery at the number on the back of your member ID card, any day, time.

- **Mail:**

Download an order form at optumrx.com > *Information center*. Mail the completed form along with your prescription and applicable mail order pharmacy copayment. Make check or money order to Optum. No cash please. New and refill prescription orders should typically arrive within 5 days from the date Optum Home Delivery receives the completed order.

Important Tip: If you are starting a new medication, please request 2 prescriptions from your prescriber. One prescription should be written for a 3-month supply and one can be for a smaller amount, like a 1-month supply. Fill the prescription for the smaller supply at a network pharmacy so you can start taking the medication right away. Ask your prescriber to send the other prescription to the home delivery pharmacy. Once you receive your medication through the mail order pharmacy program, you should stop filling the prescription at the network pharmacy
